Profile Summary

AI & analytics consulting professional with overall experience of 12 + years and 8+ years of experience in delivering end-to-end AI/ML solutions and strategic data programs across industries. Strong track record in client advisory, solutioning, and engagement management, with hands-on expertise in classical ML (forecasting, NLP, segmentation) and working knowledge of Generative AI, LLMs, and agentic AI. Adept at translating complex business problems into scalable AI solutions, driving proposal development, and communicating clear business value to senior stakeholders.

Skill-Set

- **Technical:** Python, Power BI, SQL, Azure Cloud Platform, Gen AI, NLP, Agentic AI. Well-versed in agile & water – fall Methodologies.
- **Core Competencies:** AI Product Management, AI/ML Consulting & Engagement Management , Client Advisory & Stakeholder Leadership, Proposal/RFP Solutioning , Classical ML (NLP, Forecasting, Segmentation, Predictive Modelling), Gen AI & Agentic AI, Delivery & P&L Ownership
- **Domain Skills:**
 - Life Sciences: Customer Data Platform, Sales Analytics, Marketing Effectiveness, CLV, Churn Prediction, Generative AI, R&D Data Platform, Medical Affairs, Stability Data.
 - Insurance: Property & Casualty, Health Insurance, EIS System, Claims Processing.

Professional Experience

Total Experience: 148 Months

Cognizant Consulting, Sr. Consulting Manager (Product & Data)

Jun-2021 to date (58 Months)

Product Management:

- Owned end-to-end product lifecycle for AI and analytics products, from discovery and problem definition to delivery, adoption, and continuous improvement.
- Defined product vision and multi-year roadmaps for data and AI platforms, aligning with business strategy and enabling scalable, reusable capabilities.
- Acted as Product Owner in Agile environments, managing backlogs, sprint planning, and prioritization using frameworks such as MoSCoW and Kano model.
- Prioritized features and initiatives based on business value, user impact, effort, and dependencies, ensuring optimal resource utilization and ROI.
- Conducted user research, stakeholder interviews, and feedback loops to refine product direction and improve user experience.
- Drove product adoption and change management through training sessions, demos, and stakeholder engagement.

AI/ML Solutioning & Consulting Engagements

- Delivered 10+ AI/ML engagements across domains, translating complex business problems into scalable solutions.
- Designed solutions leveraging forecasting, NLP, and predictive analytics, improving decision accuracy and operational efficiency.
- Defined success metrics and tracked KPIs, ensuring 15–25% performance improvement across use cases.

Gen AI Solutions

- Developed a synthetic data generation solution using W-GAN, replicating real data distributions.
- Addressed data privacy, bias, and regulatory constraints, enabling safe data sharing.
- Reduced time-to-data availability by ~40%, accelerating analytics and model development cycles.

Responsible AI & Governance Framework

- Designed and implemented a Responsible AI framework aligned with NIST AI RMF and ISO 42001 standards.
- Conducted AI risk assessments and impact analyses, ensuring fairness, transparency, and compliance.
- Delivered strategic roadmaps improving organizational AI governance maturity.

Data & Analytics Strategy Advisory:

- Advised senior stakeholders (Directors/AVPs) on data strategy, analytics roadmap, and AI adoption initiatives.
- Led discovery workshops and defined enterprise data platform initiatives, aligning with business growth goals.
- Developed multi-year data & AI roadmaps, prioritizing initiatives based on business value, feasibility, and long-term scalability.

Engagement & Delivery Leadership:

- Managed 5–8 concurrent projects, ensuring >95% on-time delivery and high-quality outcomes.
- Built and mentored teams of 5–12 members, improving delivery efficiency and capability maturity.
- Strengthened client relationships, driving 20–30% account growth through upsell and repeat engagements.

Dingoo Karthick Gopalan

karthick.pgp16008@iimkashipur.ac.in | +91-9566709689 | <https://www.linkedin.com/in/dingoo-karthick-g-2097ba130/>

- Identified whitespace opportunities and innovation areas, helping clients expand analytics adoption across functions and unlock new business value.

Business Development:

- Developed proof-of-concepts (POCs) and solution accelerators to showcase AI/ML and Gen AI capabilities, accelerating deal closures and client buy-in.
- Led and supported 15+ RFP/RFI responses, developing solution frameworks, value propositions, and delivery models, contributing to multi-million-dollar pipeline creation and deal wins.

Thought Leadership:

- Led internal knowledge-sharing sessions and workshops on Gen AI, LLMs, and emerging AI trends, contributing to capability building across teams.
- Authored blogs and internal publications on Responsible AI, covering governance, ethical AI adoption, bias mitigation, and regulatory readiness.
- Drove innovation initiatives and capability development, shaping organizational offerings in AI, analytics, and data platforms.

Marketing Analytics

- Led multiple marketing analytics solution covering segmentation, campaign effectiveness, and ROI tracking.
- Built predictive models (segmentation, churn, CLV) improving campaign targeting efficiency by ~20%.
- Streamlined marketing operations, resulting in \$100K+ cost savings annually.
- Partnered with business stakeholders to define KPIs and dashboards, enabling real-time decision-making.

LatentView Analytics, Assistant Manager

Apr-2018 to 2021 June (38 Months)

- Worked across products, consulting and delivery divisions facilitating cross pollination of ideas and contributed to multiple analytics projects.
- Spearheaded multiple marketing analytics engagement across multiple domains helping the clients to get insights out of data and enabling the clients to save more than 100K dollars in stream-lining their marketing operations.
- Took on versatile roles, including Product Owner, Product Manager, Business Analyst, and Consultant, in a newly established division where responsibilities were evolving.
- As a Product Manager, conducted market scoping and research to identify new markets, assessed market opportunities, and evaluated product-market fit.

Infosys, Technology Analyst

Apr-2015 to Jun-2016 (14 Months)

- Worked on Mainframe projects associated with Wal-Mart covering the entire spectrum of Software Development Life Cycle.
- Performed impact analysis for the requirements, developed codes and performed unit and integration testing of the code
- Propositioned the code and provided support during production release to have minimal impact on the day-to-day operations
- Spearheaded the implementation and development activities from Sao Paulo, Brazil.

Cognizant Technology Solutions, Programmer Analyst

Dec-2011 to Mar-2015 (38 Months)

- Executed multiple mainframe projects for various Healthcare clients like UHG, predominantly on the claims processing front
- Played the role of techno-functional consultant for Cognizant Business Consulting (CBC) Healthcare division, imparting technical understanding to the BA and Consultant about a Claims processing system

Academic Qualifications

- PGDM/MBA from Indian Institute of Management, Kashipur (2016-18) - Marketing and IT & Analytics
- BE Computer Science and Engineering from Anna University, Chennai (2007-11)

Certifications

AZ900 (Azure Fundamentals)	AI900 (AI Fundamentals)
